

Newark Campus Development Fund

IMPACT REPORT

Extraordinary History of Support

The visionary leaders who paved the way in 1957 for Newark to have a regional campus of The Ohio State University understood the importance of higher education for our community and the opportunity that having a local option would bring to the area. The community further embraced their foresight in 1966 when thousands of people raised \$1 million to purchase and construct what would become the first building of the Newark campus. An inspiring feat even for today's standards.

Within this report, you'll read firsthand stories of how the spirit of the original founders and contributors live on today. You'll learn of current student Ian Morehead who is the grateful beneficiary of The Park National Bank and Associates' Scholarship, which his mother helped inspire her Park National Bank colleagues to establish in 2012. You'll be introduced to several present-day scholarship donors, including business newcomer Behr Paint Company who established a scholarship to deepen their involvement in their new community, and Kevin and Nicole Cox who have always had a heart for Newark and have chosen to give back.

The Newark Campus Development Fund has the privilege of stewarding the gifts our neighbors have entrusted to support the Newark campus so that our community has these thriving educational institutions close to home. We hope you enjoy this latest update on how our work continues today.

Sincerely,

Robert A. Montagnese
Chairman

Jennifer W. Roberts
Executive Director

Excerpt from the 1966 campaign final report:

The volunteer leadership and workers involved in the campaign can be justifiably proud of the extraordinarily fine results of this campaign. The spirit of civic pride generated by their hard work and enthusiasm has pervaded every section and segment of Licking County. This is markedly evidenced not only by the wholehearted financial support as indicated by the large number of contributions, but also by the size of individuals gifts.

*However, **it is the spirit of independent, unsolicited, volunteer giving on the part of the single individual that best illustrates the degree and extent of their civic pride and enthusiasm for this project.** When total strangers made the deliberate effort to locate the Campaign Headquarters and go out of their way to come in, introduce themselves and ask for a pledge card; when a farmer takes his produce to market, and in an exchange of conversation complains that he wants to give fifty dollars to the Campaign but doesn't know who to contact to give it to; when factory workers, who have declined contributions in past solicitations, insist on volunteer payroll deductions so that they may contribute something more than just a "token gift"; when social-service clubs and organizations decide to divert funds already earmarked for their own special projects and give it to the Campaign because they think this project is more important – such actions dramatize Licking County's achievements.*

AWARDED IN 2022-2023:

\$1,418,196 Scholarship Dollars | 327 COTC Scholarships | 339 Ohio State Newark Scholarships | \$3,484,848 Grant Dollars

In Recognition of Outstanding Service

An Extraordinary Leader

In Gratitude to

Dr. William MacDonald

In the spirit of leaders who have made a great impact on the Newark campus through the years, we would like to express our gratitude to Dr. William MacDonald for his incredible leadership as dean and director of The Ohio State University at Newark. On July 31st, Dr. MacDonald stepped down from his role of 20 years, during which time his extraordinary commitment helped guide Ohio State Newark to see continued development of campus infrastructure, growth of the student body, and enhanced academic rigor.

Alongside the continued leadership of Dr. John Berry at Central Ohio Technical College, we welcome Dr. Matthew Smith as incoming dean of Ohio State Newark and look forward to the continued cost-share partnership between these great institutions.

A True Titan of Our Community

In Memory of

William "Bill" T. McConnell, *Trustee Emeritus*

William "Bill" T. McConnell passed away on August 14, 2024. With his passing, we said goodbye to not only a trustee emeritus to our organization, but a true titan of our community. Bill had a distinguished career with Park National Bank, rising to the rank of President in 1979, CEO in 1983, and Chairman in 1993, before retiring after 55 years of service.

Bill and his wife Jane led a lifetime of dedicated service to our community. Perhaps the most fervent champions of ensuring advanced education was accessible to all, their philanthropy co-founded A Call to College, an educational access program for Newark City Schools, and established two scholarship funds held at the Newark Campus Development Fund to benefit students attending the Newark campus. Bill had held a leadership position on the Newark Campus Development Fund board of trustees since 1986.

Bill leaves a widely known and highly respected legacy of community service and leadership to many organizations in Licking County, where he served as an inspiration for community members by planting seeds of responsibility regarding service, leadership, and philanthropy. His legacy will be a model of an engaged citizen who worked hard to improve the lives of people in our community, possessed an ethos of service, and challenged local leaders to lead with integrity, grit, and effectiveness.

Honoring Louella Hodges Reese and a Lifetime of Philanthropy

The Rededication Ceremony

On July 31st, the community gathered for a ceremonial ribbon-cutting at the rededication for Louella Hodges Reese Hall. Mrs. Reese addressed the crowd, reminding all in attendance of the monumental effort of the original founders of the campus sharing, "You all that were here in the beginning and have been so dedicated with your support to the university... this was an innovative thing, and now it has been going for 60 years. Our future is bright."

Our thanks go out to the original founders of the Newark campus as well as the hundreds of individuals that have supported this most recent endeavor. These generous gifts will enhance student learning, heighten student success, and elevate the student experience for decades to come.

Renaming the Renovated Facility in Honor of Louella Hodges Reese

The power of education to improve lives has been a driving force behind much of J. Gilbert and Louella H. Reese's philanthropy. Together, the couple supported the construction of nearly every building on the Newark campus. They started the annual tradition of sponsoring the Independence Day concert and fireworks display, bringing together thousands from our community in patriotic celebration. The inspiration behind the Next Generation Challenge Campaign, which raised nearly \$21 million in scholarships for the Newark campus, was a \$10 million challenge match issued by Mr. and Mrs. Reese. Mrs. Reese, herself, spearheaded the development of COTC's Italian Immersion Program, which provides a fully-funded opportunity for COTC students and students from the town of Reggello, Italy to participate in a global exchange program, partaking in the life-changing experience of a foreign culture, language, cuisine, and customs.

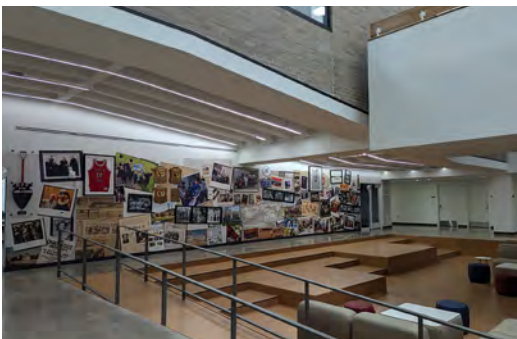

Mrs. Reese's expansive work has continued on after the 2018 passing of her husband. "I almost feel that I have an obligation to keep going, continuing what Gib started. He just always wanted to make Newark and Licking County better, and that's what we are doing."

Her commitment to public art is why the Newark campus is home to the largest single collection of Gary Lee Price sculptures in the world. Mrs. Reese's life-long appreciation and passion for public art was sparked on a school field trip to the Granville post office. "I can remember it so well because there were less than 900 people in the town when I was in the school, and our teacher took us on a walk to the new post office that had just been built," she reminisced. "The mural was the biggest painting I had ever seen... It depicted the settlers coming to Granville and clearing the woods so that they could build their log cabins. I appreciated the fact that someone had put a mural in Granville. That was a special thing for our little town."

That spark of inspiration has led Mrs. Reese to dedicate a lifetime to making our community the special place that it is. The renaming of Founders Hall in her honor allows for public acknowledgement and recognition of everything that Mrs. Reese has done for the Newark campus.

Together, the couple supported the construction of nearly every building on the Newark campus.

The Stuart N. Parsons Plaza Recognizes a Dedicated Community Leader

Stuart Parsons, seated front row, center, is joined by his family at a special gathering to celebrate his recognition.

Stuart N. Parsons has contributed his wealth of knowledge and expertise as a trustee for the Newark Campus Development Fund since 2006, providing deep-rooted, local leadership to steward the resources entrusted to NCDF by our community. As public acknowledgement of the guidance and leadership he has provided to inspire so many donors in our community to support the philanthropic goals of the Newark Campus Development Fund, trustees of The Thomas J. Evans Foundation were proud to make a gift to honorifically name The Stuart N. Parsons Plaza on his behalf.

Mr. Parsons has demonstrated his steadfast dedication to the Licking County community and has lived out his belief that community service is a vital endeavor with immeasurably valuable benefits. Mr. Parsons spent his career at Park National Bank, where he retired as the Senior Vice President and Trust Officer after an impressive 38-year career, during which he had extensive involvement with the Ohio Bankers Association, Licking County United Way, Licking Memorial Health Systems, The Works Capital and Endowment Fund, Licking County Board of Mental Retardation and Developmental Disabilities, Licking County Mental Health Association, Newark Rotary Club, the John and Mary Alford Foundation, the Patricia R. and Herbert J. Murphy Foundation, Licking County Foundation, the Johnstown Area Community Foundation, and the Mary E. Babcock Foundation. In 2006, he was recognized for his generous community spirit with the Licking Memorial Health Systems Lifetime Achievement Award.

Mr. Parsons has demonstrated his steadfast dedication to the Licking County community.

Community-Minded Kevin and Nicole Cox

“We’ve seen firsthand how a little bit of financial help can make a big difference for students. This is our way of giving back... for many years to come.”

Kevin and Nicole Cox’s lives have been interwoven with the Newark community from the very beginning. Born and raised in Newark, they both attended St. Francis de Sales School and continued at Newark Catholic High School. After graduation, their educational paths led them to The Ohio State University, where they each pursued their unique passions and ambitions.

Nicole began her college career at Ohio State Newark, a decision that proved to have many benefits. “The flexibility Ohio State Newark offered really stood out to me,” she recalls. “I was able to work through my college time, which allowed me to meet so many people in the community. Those connections were great, and actually introduced me to someone who hired me for my first job after graduation.” She eventually transitioned to the Columbus campus to complete her degree in human development and family science.

Kevin, on the other hand, attended Ohio State’s Columbus campus to pursue a degree in finance. After completing his undergraduate studies, Kevin completed an accelerated MBA program at Ohio University and then returned to Newark to build his career as a financial planner with Edward Jones Investments.

Their deep-rooted connection to Newark and their belief in the power of education led Kevin and Nicole to recently endow The Kevin and Nicole Cox Scholarship at the Newark Campus Development Fund. This scholarship supports graduates from Licking County high schools attending The Ohio State University at Newark or Central Ohio Technical College.

“We’ve seen firsthand how a little bit of financial help can make a big difference for students,” Kevin explains. “This is our way of giving back to potentially help a number of students (especially fellow Buckeyes!) for many years to come.”

For Nicole, the scholarship represents more than just financial support. It’s about fostering a sense of community and opportunity for local students. “The Newark campus is a great option for our local kids, to be able to stay local, work local and then hopefully raise their family and live here as they grow up,” she says. “It’s important for employers looking for local talent that there are local options.”

Kevin and Nicole’s dedication to Newark is evident in their day-to-day lives and goes beyond their scholarship fund. “Our community is always striving to better itself, and we’re proud to be a part of that,” Nicole says. They have been blessed with a good life here, and with welcoming their son Everett this past year, they are proud to forever call this place home. Their shared values of education, community, and philanthropy are the driving forces behind their efforts to make a difference, no matter how small.

Their story is a testament to the enduring power of community and the important role that the Newark campus plays in enriching the lives of its residents. Through their scholarship and their active involvement, Kevin and Nicole are helping to ensure that the next generation of Newark campus students have the support and opportunities they need to succeed.

“By awarding me The Heritage Scholarship, you have greatly lightened my financial burden. This will help me focus on school instead of the stress of working full time while trying to complete school. I hope one day I can give back to the community and help students reach their goals just like you have helped me. Thank you so much for awarding me with this scholarship.”

– A Scholarship Recipient

This investment in our students and community would not happen without our generous donors!

A Family Connected by Community

The Newark campus has long been a fixture in our community, so much so that you can find multi-generational stories of families taking advantage of the education it affords our neighbors. This is the case with Ian Morehead and his mom, Jenny. Ian, a 2023 Newark Catholic High School graduate, will begin his sophomore year at the Newark campus, pursuing a biochemistry degree with intentions of entering the medical field.

The choice was easy for Ian, as he had already weighed the pros and cons of his decision with his parents. After deciding to attend Ohio State, starting at the Newark campus was a logical decision for him. Not only has it been convenient to continue to live at home, but Ian has found the smaller class sizes and the personalized relationships he can have with professors to be unmatched benefits.

“‘Pay it forward’ is kind of the motto—even though he is receiving the scholarship, we are still paying it forward and hope it will benefit other students and our community.”

“I like how the teachers are right in front of you,” he shared, “as opposed to going to the Columbus campus where you are in a class of a couple hundred students and you have to talk to the TA instead of the actual teacher.”

Jenny Morehead's journey has closely paralleled her son's, albeit a generation earlier. As a student, Jenny transferred to Ohio State Newark after having spent two years at another institution. Originally from Granville, Jenny spent her first two collegiate summers back home, working as a teller at Park National Bank in her hometown. Enjoying her work at the bank and wanting to be home in the community she loved, she made the switch to the Newark campus. Jenny ultimately completed her business degree at the Columbus campus but would have happily continued at the Newark campus if the opportunity had existed when she was attending the university.

Park National and its associates pledged \$1 million to establish The Park National Bank and Associates' Next Generation Challenge Scholarship honoring William T. and Jane Cook McConnell in support of the Newark campus's Next Generation Challenge Scholarship Campaign. Bill McConnell, chairman of the campaign, and his wife Jane donated another \$1 million. Director emeritus J. Gilbert Reese and his wife Louella matched community gifts up to \$10 million in aggregate. It was the most successful fundraising effort for either institution, raising nearly \$21 million.

Park National Bank was established over a century ago, and continues as a family of community banking teams that deliver an exceptional breadth and depth of resources to individuals and businesses, with a hands-on, personalized approach to service and strong local leadership that invests deeply in the places they live and work.

Ian will also eventually transfer to Columbus to pursue his coursework, but a scholarship he received to attend the Newark campus was key in his decision to remain for the start of his sophomore year. Ian is a recipient of The Park National Bank and Associates' Scholarship honoring William T. and Jane Cook McConnell, a scholarship held at the Newark Campus Development Fund. This particular scholarship brings extra significance as Jenny has continued her career at Park National Bank, currently serving as a Commercial Lender.

“There are so many scholarships you can receive at Newark... it makes me see how close-knit everyone is.”

“Ian probably doesn't know this... I was asked to be the leader of our task force here at Park to raise the million dollars,” reflected Jenny. “That was pretty special that we met that goal!”

Jenny contributed to that campaign, creating the scholarship her son would one day go on to receive. Although that campaign has come and gone, Jenny and her husband continue to donate to the Newark Campus Development Fund, most recently supporting the capital campaign to build The John and Mary Alford Center for Science and Technology. “I feel like Ian is getting the scholarship and we are sort of paying into it, but that is how you give back,” Jenny says. “Pay it forward’ is kind of the motto— even though he is receiving the scholarship, we are still paying it forward and hope it will benefit other students and our community.”

Over the years, Jenny has seen the campus grow and is amazed by the community support that has made it such a special place. It is a benefit to have such an opportunity close to home, but also a place where students from outside the community may come, see the support from our local community and decide to stay for the great opportunities they come to learn about.

The Newark campus thrives with support from our community. It's a sentiment Ian also picks up on. Regarding receiving his scholarship, he says, “It means a lot to me... There are so many scholarships you can receive at Newark—I didn't realize that. It makes me see how close-knit everyone is.”

Behr is Proud to Be a Part of This Community

This past spring marked the opening of Behr Paint Company's newest state-of-the-art Manufacturing and Distribution Facility in Heath, Ohio. Soon after choosing their new home on the Heath-Newark-Licking County Port Authority's Central Ohio Aerospace and Technology Center campus, leaders from Behr and Masco Corporation, parent company of Behr, worked with the Newark Campus Development Fund to establish a scholarship to benefit students furthering their education at the Newark campus.

The Behr Paint Company Scholarship will make inaugural awards in the 2024-2025 academic year to support military service members, single parents, students enrolled in Ohio State Newark's Bachelor of Science in Engineering Technology (BSET) program, and students with financial need. “We are proud to be a part of this community. It is our promise to be supportive stewards of this community,” shared Megan Selby, President of Behr Paint Company, at their ceremonial ribbon-cutting.

Ohio Plant Manager Lauren Standish and Regional Distribution Assistant Manager Eva Vega are both long-standing Behr employees who relocated with their families from other Behr facilities to help establish the new site in Heath. Their experience was pivotal during the early months as the operations came together from the ground up. Both women even played a role in Behr's introduction to the broader community.

“Coming into the community, Behr really looked at how they could help,” Eva shared. “That is why we established the scholarship.” In addition to establishing their fund at NCDF, Behr has made grants and volunteered with the Food Pantry Network of Licking County and Together We Grow.

“I'm excited we are contributing towards the education of members in our community,” says Lauren, who also serves as the liaison for NCDF. “I'm especially looking forward to the work and impact the BSET program will have on producing future engineers who will contribute to the manufacturing industry.”

The Newark Campus Development Fund is grateful to include Behr in the growing number of generous Licking County businesses that have established a scholarship to support students at the Newark campus.

“It is our promise to be supportive stewards of this community.”

A Dedicated Community Advocate

In Memory of **Herbert "Herb" Murphy**

Herbert "Herb" J. Murphy passed away on December 27, 2023. Herb's passing marked the loss of a loving husband, father, friend, and a dedicated community advocate. Herb and his devoted wife, Pat, initiated numerous philanthropic endeavors throughout our community. One such effort was the 2012 establishment of The Pat and Herb Murphy Scholarship during the Newark campus's Next Generation Challenge campaign. Created as a planned gift, scholarships to support students at Central Ohio Technical College and Ohio State Newark will begin to be awarded in the next academic year.

Pat and Herb were lifelong residents of Licking County where they raised their five children, Kathleen, Marilyn, Michael, Patrick, and Roney. Pat and Herb initiated numerous philanthropic endeavors throughout the community for causes they held dear. Throughout their lives, they enjoyed traveling the world together. Pat and Herb had been married for 68 years at the time of Herb's passing in 2023.

NCDF ANNUAL FUND

Established in 2005, the NCDF Annual Fund provides critical funding that ensures the Newark campus can attract and keep the best and brightest students. Annual support from alumni, parents and friends of the campus provides unrestricted financial aid and funds for greatest needs.

ENDOWED SCHOLARSHIP FUNDS

Endowed scholarships are permanent gifts to NCDF where the capital is preserved while annual scholarship awards are offered in perpetuity.

Scholarships Benefiting Students Attending Either Ohio State Newark or COTC

- The John W. Alford Scholarship
- The American Electric Power Foundation Scholarship
- The American Legion Post #65 Scholarship
- The Behr Paint Company Scholarship†
- The Melissa Warner Bow Family Scholarship

Funds to Recognize Outstanding Performance

- The Julius S. and Joette Greenstein Award
- The Al Milliken Graduate Award

UNRESTRICTED FUNDS

- The Constance Corkwell Baldwin Fund

CAPITAL IMPROVEMENT AND CAMPUS ENHANCEMENT FUNDS

- The Howard E. and Catherine B. LeFevre Fund
- The Reese Family Fund
- The John and Christine Warner Library and Student Center Fund

"I can't begin to express what an honor it is to have received The First-Knox National Bank Scholarship honoring Gordy Yance... with this scholarship, I am on track to not have to take out a student loan in order to graduate. I have felt an immense amount of relief in knowing that I can complete my degree debt-free."

— A Scholarship Recipient

Become a Partner with the Newark Campus Development Fund!

We gratefully accept a broad range of gifts to establish or add to a fund. Donors may consider a variety of assets to contribute, such as:

- Gifts of cash
- Matching Funds – Employer matching gifts can double the impact of a gift
- Publicly Traded Securities
- Life Insurance Policies
- Individual Retirement Accounts
- Bequests
- Charitable Gift Annuities
- Charitable Remainder Trusts
- Charitable Lead Trusts
- Real Estate

Endowed funds can be established by individuals, families, businesses, foundations, non-profit organizations, and service groups. A total gift of \$25,000 is required to establish an endowed fund. This minimum level can be contributed over five years. A unique feature of establishing an endowed fund at NCDF is that we do not assess any administrative fees—the only fees applied to a fund are investment fees.

You can honor someone special by giving a memorial or tribute gift in their name—a meaningful way to honor them while supporting our mission. Your thoughtful gesture will be a lasting tribute to your loved one and make a difference in the lives of those attending the Newark campus.

"I can now dream greater and aim higher for my academic objectives because of your generosity. I'm committed to studying well in school and using the knowledge and skills I've acquired to make meaningful contributions to my field. Thank you for your generosity and for being a beacon of hope for students like me."

– A Scholarship Recipient

Board of Trustees

Members of the board of trustees of NCDF are appointed by the dean/director of The Ohio State University at Newark, the board of trustees of Central Ohio Technical College and the board of trustees of the Licking County Chamber of Commerce.
